

THE SUN CYCLE PROTOCOL

This work may not be copied, distributed, or paraphrased (in part or in whole) without expressed written consent from the [Noonebu Academy](#).

**The information in this document prepares the reader to understand
the information that is taught in the Noonebu Academy.**

The existence of eternal nature is divided into time periods called cycles. These cycles of absolute nature are networks of natural laws and energies which cause all matter of nature to change for better or worse in a circular manner, completing phases of circular changes as time progresses. Completed phases are known as "Cycles of Nature." To put it another way, the cycles of nature can be likened to the time numbers on the face of a clock, and the laws and energies of nature are the hands of the clock that turn and complete the cycles, and are thereby parts of the cycle network ("the clock").

Figure 1 and 2 below this paragraph show circles divided into four equal quarters by perpendicular and horizontal lines. Like planet earth has four seasons and cycles, all existence which is infinite-eternal nature also has four major seasons and cycles. But, whereas the earth's seasons and cycles are measured in days, months, and years, absolute nature's seasons and cycles are measured in thousands, millions, and billions of years when almighty nature is considered as a whole. The two circles in this diagram are the same, and they show the sequence numbers (1-2-3-4) which are the order in which the four equal quarters exist one degree at a time. This circle is called the "Existence Circle" or "Circle of Existence" because it represents all of nature (all existence) one degree at a time.

Diagram 1

Figure 1 in the preceding paragraph shows the four major seasons of absolute nature. This circle has 720 degrees (not shown), symbolizing all existence (all of nature) and turning counterclockwise, existing one degree at a time.

NOTE: You may be thinking, "What? A circle with 720°?" Most people believe that a circle is limited to 360 degrees because they do not account for the fact that the symmetry of a circle is infinite. Because the symmetry of a circle is infinite, there is no reason to limit a circle to only 360 degrees if the use for this symbol or shape requires it. A circle can be divided equally no matter how many degrees are designated.

The spring season or first quarter of the Existence Circle is the "Revolution Cycle." The summer season or second quarter is the "Origination Cycle." The autumn (fall) season or third quarter is the "Declination Cycle." The winter season or fourth quarter is the "Evolution Cycle." Figure 1 shows very clearly that the epoch period known as the Evolution Cycle is only one-quarter (1/4) of the Existence Circle, and knowing this is important because most people have never heard anything about the other three quarters of time and the activities thereof. There is a lot of evidence (artifacts) proving that civilizations existed and technology was being used millions of years ago. Most people are simply unaware of these facts.

It is important to establish exactly where all people, places, and things are existing on the Circle of Existence right now, and the specific mental and physical activities thereof for the purpose of survival, well-being, and growth. For instance, the Declination Cycle or third quarter of the Existence Circle is the mental, energetic, and physical processes of gradually undoing what happened during the Origination Cycle. The Revolution Cycle of the first quarter is the mental, energetic, and physical processes of slowly undoing what the Evolution Cycle did. The present time is the beginning of the Revolution Cycle. Note that point three (3) of the circles of Diagram 1 is at the absolute bottom of the circles and at the foot of the vertical line. This point is called "Point 3 Cosmos." *Point 3 Cosmos* on the Circle of Existence is where every person, place, and thing exists right now at this time, and all are going through revolutionary changes at this time at every level of existence. The immediate time to the left of the vertical line at the bottom of the circle and represented by a blue dot (see Fig. 2) is called the "Moon Cycle" and lasts six thousand years.

On the long term zodiac (bottom half of The circle in Fig. 4, the Virgo Cycle of Absolute Nature is the last 3 million (3,000,000) years of The Evolution Cycle, and The Moon Cycle is the last six thousand (6,000) years of The Virgo Cycle and Evolution Cycle.

NOTE: The zodiac is used here because of its familiarity with the common person and as a point of stellar time reference.

The Libra Cycle of the long-term Zodiac of Nature is indeed the first three million (3,000,000) years of the Revolution Cycle, and THE SUN CYCLE (see Fig. 2), represented by a red dot on the right side of the vertical line at bottom of the circle, is the first six thousand (6,000) years of the Libra and Revolution Cycles. The sun and the earth's moon of our solar system are natural opposites in absolute nature in this part of our universe, because the sun represents life and the living and the moon represents death and the dead, mentally, energetically, and physically. As stated earlier, it is important to know where all people, places, and things are right now on the Circle of Existence and what time it is according to the timetable of universe annals. Where we all are right now is Point 3 Cosmos on the Existence Circle, and it is definitely time for the change from the Moon Cycle (the cycle of forgiveness and also mercy) to the Sun Cycle (the cycle of balance, order, and judgment). The close of the Moon Cycle and the rise of the Sun Cycle means that it is time for mental resurrection and mental liberation. It is time a for rise of true culture, balance, order, and judgement.

Diagram 2

Fig. 3 is another form of the Circle of Existence and in more advanced teaching via the [Noonebu Academy](http://Noonebu.com) which this report prepares the reader for, the Existence Circle is called the "Cosmos Circle of Order." The other circles shown in this report are various forms of the "Cosmos Circle of Order." The nine (9) in the top half of this circle represents the original and primary creative/destructive energy, which we call "NoopooH." The Six (6) in the bottom half represents the evolutionary and secondary creative/destructive energy, which we call "ZoopooH." The bottom half of the circle is the counterworld and opposite of the top half, having opposite forms, functions, designs, and purposes. The top half is a circle of 360° and the bottom half is likewise 360°, because the halves are different worlds, at different time periods, and different states of mind, for the top half (9) is life and the living, and the bottom half (6) is death and the dead. The two halves exist at opposite times and the circle exists one degree at a time. That degree is all existence (all of nature) making a one degree circular change in all matter throughout nature.

Diagram 3

The long-term zodiac, as shown in Fig. 4 at the bottom of the previous page, is not an imaginary line of longitude and latitude some place in the sky. Instead, it represents the animal world, which is bottom half of the existence circle. This world of animals is what we call the "Zoop" instead of the zodiac. Whereas the Zoop is the bottom half of the Circle of Existence, the "Noop" is the top half as shown in Fig. 5. Both "Noop" and "Zoop" are pronounced like they are spelled. As in Fig. 2, imagine there are two dots in Fig. 4 at the bottom of The Circle. The left dot denotes the Moon Cycle at the end of the Virgo Cycle, and the right dot denotes the Sun Cycle at the beginning of the Libra Cycle, which is where every person, place, and thing in existence is right now at this time, and this is why it is time for mental resurrection and mental liberation. The laws, order, and principles of absolute nature dictate and determine that the Existence Circle must move toward better standards and qualities of life and living instead of everything descending further or starting to disintegrate at point 3 cosmos on the Existence Circle.

NOTE: 9 and 6 are used to symbolize opposites and are not values. Numbers denote value but a symbol in general can be used to denote anything. Though 9 and 6 are indeed numbers they are also symbols. There is a reason why these 2 symbols later became numbers. This topic is covered in Noonebu Academy lessons and literature.

Like the Noop, there are also twelve signs of the Zoop, and these long-term signs (cycles) last for 3,000,000 years each. One degree of the circle is a time duration of 100,000 years, and the Existence Circle of Order has 720 dots (not shown) or degrees: 360 for life at the top half of the circle, and 360 for death at the bottom half. The bottom half (Zoop) is animals and their world, and the top half (Noop) is dynamo beings and their world. Remember, the circle exists only one degree at a time and that one degree is all of absolute nature making a one degree circular change in all matter throughout nature. The direction of the Circle of Existence is counterclockwise degree by degree and eventually completing the whole Circle of Existence back at the point where the circle begins which is at POINT 3 COSMOS. The Noop is indeed represented by parts of the human person instead of animals like the Zoop. The symbol 999 of the Noop, as shown in Fig. 4, stands for the highest power and mentality in space, matter, and time respectively. The symbol 666 of the Zoop stands for the opposite thereof.

While one of the purposes of this report is to impart some vital knowledge to the reader and prepare him and her for more advanced knowledge, the main purpose of this report is to inform you of where we all are right now on a universal timetable, and what mental and physical activities will be going on and are indeed going on at this time, and why, as well as how and when. Where we all are on the Circle of Existence is at POINT 3 COSMOS of the Cosmos Circle of Order, and this time is surely the time for mental resurrection and mental liberation so that the Existence Circle can go back upward in the standards, qualities, and values of absolute nature symbolized by the right side of the Circle of Existence.

It is expected that the following question will arise and it should: "How can we tell or how do we know that we all are at POINT 3 COSMOS on The Circle of Existence?"

This is our answer: All scientists like anthropologists, archeologists, and geologists know that nature (including people) have been in the evolution cycle for millions of years, and that evolution and the activities thereof act as a measuring meter on the progress of evolution for better or worse. Taking this fact into consideration, we can identify when, where, and how evolution is taking place. Because of this fact, by default, we can also identify when evolution is not taking place or has stopped. Being that DNA is an excellent source of physical record and evidence, if there is life on this planet that is evolving, there must be DNA evidence of it. If there is no DNA evidence of it, then one has no substantiation or evidence to support the claim that evolution is occurring or taking place. If the majority of the life on this planet does not show evidence of evolution, then one can observe that the life on this planet has stopped evolving or is in the process of stopping evolution. The life of this planet can indeed be used to measure and observe evolution. Likewise, it can also be used to measure revolution. Furthermore, the belief-based philosophies of this planet have been exhausted and are failing people. Mankind itself now has the capacity, ways, and means to make planet earth uninhabitable (non-livable) for all physical living beings and is raping and destroying the earth inside and outside as well as polluting and contaminating the atmosphere surrounding her. This cannot and will not continue indefinitely if the earth and the universe as well as their offspring are to survive. Make no mistake, we are not "climate change"

activists or proponents. The ability to destroy the earth was used only to illustrate the fact that the minds (people) of this planet have descended in reasoning to the point of being capable of destroying all life in many ways (research the Russian perimeter system called "Dead Hand"). This is all evidence that supports the claim that the Evolutionary Cycle is over or ending.

These things, among many others, indicate that we all are at POINT 3 COSMOS on the Circle of Existence, and that it's time for the mental resurrection and mental liberation of persons, places, and things.

The Noonebu Academy is qualified and authorized by the laws, order, and principles of absolute nature to record and circulate knowledge of absolute nature to those who want it and need it for survival, better living, and well-being.

Noonebu Culture provides mental cultivation in the form of nature education by universal reason for the purpose determining balanced and orderly conduct, decorum, and behavior of persons and things as a way of life. Noonebu Philosophy provides a path for distinguishing knowledge from ignorance, truth from lies, justice from iniquity, honesty from deception, reality from delusion, reason from belief, etc. In other words, Noonebu Culture is everyday conduct and activities of people based upon and in equilibrium with the laws, order, and principles of absolute nature and universal reason, as a way of life and death. Noonebu Culture is true culture.

Therefore, the pursuit of the nature of nature and its laws by way of universal reason via nature knowledge, clear understanding, and applied wisdom is the true culture of the "Ta" and is what we call "Sun/Star Culture," the culture of the stars themselves. Ta minds (people) were in power before falling BY NATURE to the adverse forces of evolution. The negative forces of nature are the enemies of the Ta. The negative forces of nature that have brought the world and its people to the brink of despair and destruction, morally and otherwise, are not of the nature to pull the Circle of Existence upward instead of downward. NoopooH and the Takanu must do that with nature knowledge and "Sun/Star Mentality" or "Sun/Star Mind"—the powers and science of harmonious survival and well-being.

Some people are taught to believe that each time a person is born, he or she has a new soul that never existed before. This is not true. What is true is that the baby that was just born has a new body that never existed before, and the new body must produce life for itself if it is to continue to live after birth. The umbilical cord of the mother provides life for the embryo and fetus during the gestation period before the infant is born. It is not an individual "spirit" being called a "soul" that keeps the body alive, because so-called "spirit" beings evidently survive on the food and blood of the living bodies themselves. In other words, it is just the opposite of what religionists teach. Instead of "spirit" beings being the lives of people, people are the lives of "spirit" beings, because life itself is indeed a burning. The burning can be conscious or unconscious, constructive or destructive. There exists the life of life and the life of death. The life of life exists in the top half of the Circle of Existence during the time that the top half exists. The life of death has being in the bottom half of the same circle. Like life, death lives because otherwise it could not be active in order to reverse the living process.

Life springs from an acid base and is perpetuated (continued) by that acid base. Of course, acid burns, so hence, LIFE IS A BURNING, like the acid in a car battery is the life of the car. The car is made active by GAS BURNING, and the person is made active by BLOOD BURNING. BRAIN NOOTS that create BRAINS from other matter are ACID PARTICLES that produce MIND and REASON ENERGY who carry out the creation work of Brain Noots, which are called THE PRIME-MOVER (what scientists call the "god particle"). When a baby is born, the attending physician or mid-wife makes sure that the infant is BREATHING, and if it is not inhaling and exhaling, the baby gets a spanking to excite and activate the brain and nervous systems into action, because otherwise, the child will die, unless it was stillborn. When the baby actively starts to breathe, the oxygen (air) it breathes goes into the lungs, and acid in the blood in its lungs burns the oxygen the child breathes, and THAT BURNING IS NATURAL ELECTRICITY, and is what we call "9 Cosmos," which is life.

When the natural electricity reaches the brain, it lights up the brain like a bulb, then the person not only has life but consciousness with that life, because he or she can then see, feel, taste, hear, and smell. Therefore, a person sees, feels, tastes, hears, and smells with his or her mental organ (the brain), the organ of

consciousness, by way of the nervous systems of the brain. The brain stays alive with the organ of oxygen (the lungs) and the organ of blood (the heart), which the brain grew for its survival. Marrow of the bones, the spinal cord, and the nervous systems of a person or thing are extensions, roots, and branches of the brain of a being. Of course, the nervous systems of a person are found throughout the physical person. Then too, there is nothing mysterious about the breath of life, for it is oxygen. The point is this: when THE BURNING STOPS, that is THE END of that individual's personal LIFE, because THE PURPOSE OF THE BODY is to provide the conditions necessary for THE BURNING (that is life), and when it fails to do that, LIFE ENDS. In addition, the purpose of the body is to continue life and be the tool that the brain uses for survival and support, pleasure and pain.

Like the engine of a car gives off CARBON MONOXIDE (exhaust), the lungs of a person give off CARBON DIOXIDE. Carbon is residue of a BURNED substance or gas. The point here is this: an individual inhaling OXYGEN and exhaling CARBON DIOXIDE is EVIDENCE of BURNING taking place in the lungs and throughout the circulatory system of a living person. This is why the body of a living person is WARM and that of a dead person is COLD. Open your mouth and blow your breath on the back of your hand and feel how warm it is and you will know that burning is taking place – oxygen being burned by blood and creating NATURAL ELECTRICITY which is LIFE. Life is indeed NATURAL ELECTRICITY which is the life of all living persons and things in one degree or another.

Death is also A BURNING. But, whereas life is a burning for construction and growth, death is a burning for destruction and decay. Therefore, LIFE AND DEATH ARE CERTAINLY OPPOSITE PROCESSES. Death is a burning too, because death lives and this is why death is active and rules the bottom half of the Circle of Existence. As already stated, life is a burning (Natural Electricity), and when that burning stops, that is THE END OF LIFE, and death starts as a REVERSE BURNING, which may be called a cold burning, or the undoing of what life has done. At death or just before death of a person or thing, the mental (spirit) being(s) who possessed (was incarnate in) the person during his or her gestation period in his mother's womb or became incarnate at birth of the person takes leave from the dying or dead person or thing and seeks refuge

elsewhere, most likely becoming incarnate in another person, and this transmigration of what is called “souls” or “spirits” from body to body is known as METEMPSYCHOSIS. This is what actually happens at the death of a person or thing. There is no individual personal “spirit” or “soul” that goes on beyond the death of the body. The “spirits/souls” who become incarnate in people existed already in time immemorial. The purpose of the body is to produce the burning (life), and when the burning ends, life ends, because the condition that keeps the burning going is among the organs of the body and not outside.

NOTE: The purpose of the concept of spirit or soul is to trick people into not acknowledging their own minds or the minds of others. Religionists value “spirit” or “soul” over mind. Think about it— What is a “soul” or “spirit” without a mind? Religious doctrines mention “soul” and “spirit” more than mind in a grand deception. We recognize and condemn this great deception that is maintained by religionists, judging it imbalanced and disorderly.

Of all the various kinds of life that can exist, the most vital one next to physical life for a person is MENTAL LIFE (spiritual life). Mental life is knowing absolute nature, what absolute nature is by its laws, order, principles, and reason, that is to say, by advanced scientific knowledge about absolute nature. Of all the various kinds of death that can exist, the most devastating one next to physical death of people is MENTAL DEATH (spiritual death). Mental death is THE OPPOSITE of mental life. Victims and sufferers of MENTAL DEATH are THE MENTAL DEAD, who this report and other information distributed by the Noonebu Academy are designed to help MENTALLY RESURRECT AND LIBERATE from the adverse forces of mental death.

The “creator” (almighty nature) did not just create some persons and things at the beginning of life and order and then stop creating. They are still creating and the way they created persons and things originally is the same way they still do. That way is BY GROWING THEM. Creating does not mean making something from nothing, which is impossible. Creating means formulating and forming, constructing, building, manufacturing, composing, constituting, generating, concentrating, or growing persons, places, or things from matter or material that is already existing. THE CREATOR IS ALL SPACE, ALL MATTER, AND ALL TIME and that is ALL NATURE. The space of nature is infinite vacuum. The matter of nature is anything and everything that occupies space. The time of

nature is the continuation of the existence of infinite vacuum and infinite matter. Note that the true and nature-science definition of matter is "ANYTHING AND EVERYTHING THAT OCCUPIES SPACE." When a person reasons out and rationally analyzes this definition of matter, he or she comes to know that MATTER IS THE ALMIGHTY, together with space and time.

Matter is the almighty and the creator is in the almighty. The creator is in ALL MATTER in one degree or another (in various degrees). In our science, called the "TAKANU," the Prime-Mover in matter is called the "BRAIN NOOT." The Prime-Mover is THE FIRST PARTICLES OF MATTER to make THE FIRST MOVE towards putting people, places, and things into creation order. Brain Noots create or grow BRAINS, and as brain matter accumulates and consolidates, it produces energy called MIND AND REASON. Reason uses mind and also other energies in matter, as well as Itself, to grow persons and things. What causes the Prime-Mover (Brain Noots) to move toward formula, life and order are the proper conditions, laws of nature, and the cycle in season suitable for the being who is to come into life, form, and system as an entity. These requirements and principles of nature hold true whether the entity is going to be one of the largest organisms of nature or the smallest.

BRAIN NOOTS (the creator via reason energy) ARE IN ALL MATTER throughout infinite-absolute nature. Brain Noots are MICROSCOPIC and MACROSCOPIC, meaning, a person can neither see them with the naked eyes nor with a microscope, but we can hear with them, smell with them, taste with them, feel with them (physically and mentally), have thoughts with them, and see dreams and visions with them. The understanding of this topic as taught in the Noonebu Academy explains why there are countless different living creatures and organisms on and in planet earth that no god in the sky would ever think about creating or indeed ever care about creating, and this means that the matter of absolute nature is all there ever was, all there is, and all there ever will be. This means that MATTER IS THE ALMIGHTY, forever, together with space and time. Matter, by ways of its Brain Noots and Reason, is the creator, ETERNALLY.

Any intelligent person can reason out that there is no such thing that one day the bodies of all physically dead people are going to rise from their graves and other resting places and take on form and life again. To start with, that is against the laws of nature, which require physical living beings to go through the gestation, birth, growth, decline, and death processes as well as to have material being that is real and not an illusion. Furthermore, even if a physical resurrection could and would happen, there would not be enough room on the earth to hold all of the human bodies that have existed, going back to the beginning of evolution and death 18 million years ago.

Like planet earth has four major seasons, the same is true for all existence in general (see Fig. 1). As all of nature exists one degree at a time on the Circle of Existence, its circular changes in all matter turn counterclockwise (symbolically). The direction is opposite to the hands of a clock. When absolute nature arrives at POINT 3 COSMOS (see Fig. 1) from POINT 6 COSMOS on the left of the circle, it has finished the "Winter Cycle" of the universe. It then begins to enter the "Spring Cycle" of the universes of almighty nature. So, going beyond Point 3 Cosmos counterclockwise calls for the 9 Cosmos Mentality Energy of the Universe-Spring Cycle to wake up and start to emanate from the centers of the suns/stars (including our sun) like spring sap emanates from trees and plants after winter. This energy reaches the centers of the planets and satellites of the solar systems of the universe, and the planets and satellites begin to permeate energies that are more positive than before. The mental resurrection of persons, places, and things has begun, together with the universe orbs.

Now that the universe orbs and bodies like the sun, earth, and moon are decreasing in 6 Cosmos energy and mentality and increasing in 9 Cosmos energy and Mentality, someone has to herald and usher in this change from Universe Winter (The Evolution Cycle) to Universe Spring (The Revolution Cycle). That someone is the ATENUBI TAHARAKHTI, the writer and messenger of NoopooH, whose science is the Takanu, like the correct information in this presentation. NoopooH is the original creator and the original prime-mover of the universes and is also the resurrector of the mental dead. THE MENTAL DEAD are all peoples and persons that are ignorant about knowledge of absolute nature and the laws, order, and principles thereof of as verified by UNIVERSAL REASON and 9 Cosmos Science called the Takanu.

Whereas the four seasons called spring, summer, autumn, and winter of planet earth may deal mainly with weather, temperature, and vegetation changes, the four seasons of ALL EXISTENCE (All of Nature) likewise deal with changes in mentality, morals, standards, abilities, qualities, and values of almighty nature IN SEASONAL WAYS as pertaining to persons, places, and things. Therefore, the resurrection that we speak of is mental instead of physical, because dead bodies will not rise from physical graves. The resurrection is people mentally awakening and rising from the graves of ignorance and deception about almighty nature and its laws and learning what we human beings must know and do in order to live in physical safety and economic security with peace and contentment. Reader, try to be one of those who learns Nature Knowledge, advocates it, and practices it, for this means that you are indeed rising from the grave of MENTAL DEATH, despair, and deception toward a longer and better life and will survive the climax war between order and disorder, knowledge and ignorance, truth and lies, honesty and deception, justice and iniquity, lawfulness and lawlessness, balance and imbalance, positive culture and negative culture.

Since what is taught at the Noonebu Academy is not just a lot of beautiful words and fictitious rhetoric, and since Nature Knowledge is not just more delusion and deception that people like to be victimized by, but is reality and reason instead, it seems to be more difficult for people to be attracted to positive nature science which is correct information, knowledge, and truth. Moreover, fear of the unknown, evil spells, and curses of the negative forces of nature, and fear of the new and untried, repel people of negative nature and cause them to be suspicious and superstitious of the knowledge in this report and in other information distributed by the Noonebu Academy. It can be said then, that what is taught in the Noonebu Academy is specifically for the people that can comprehend, uphold, maintain, and perpetuate the standards and decorum of Noonebu-Ta Culture and no others. This is not something that is for everyone. This report is designed and dedicated to be a springboard to more advanced and greater knowledge of absolute nature via the Noonebu Academy. This report is the preparation presentation and QUALIFYING DEVICE required to help a person simplify and understand the literature, concepts, teachings, and instruction provided via the Noonebu Academy.

The teachings of the Noonebu Academy are designed, dedicated, and obligated by nature to bring individuals, groups of individuals, and nations of individuals up to date in cosmos science, true culture knowledge, and also standards, to where we all are on the Circle of Existence, and to inform people about what time it is to do what (by nature) for survival. Where we all are right now is at moonset and sunrise in the nature of nature and it is time to rise from the mental death and take our places in the powerhouse of the sun.
